Starcloud in Washington's Space Cluster: Facilities, Segment & Disclosure Posture

Published: November 16, 2026 · Canonical URL: https://bcesg.org/starcloud-washington-space-cluster-profile/

Verification & Scope Baseline: Census ID WA-SPC-034 (Orbital Data Centers, core). Verified facility: Redmond, WA (2517 152nd Ave NE). Private-company figures are labeled as reported, never as audited filings.

Field	Verified Record
Census ID & Tier	WA-SPC-034 (core)
Segment	Orbital Data Centers
WA Facility	Redmond, WA (2517 152nd Ave NE)
Ownership	Private (venture-backed; formerly Lumen Orbit)
Census Size Signal	Raised $170M (Mar 2026) + $250M (Aug 2026); orbital GPU data centers

What Starcloud Builds and Operates in Washington

Develops space-based GPU orbital data centers using solar power and radiative vacuum cooling (CLM-01, CLM-26).

Headquartered at 2517 152nd Ave NE, Redmond, WA with a reported 100,000 sq ft production facility expansion in Woodinville, WA (CLM-26). Reported $170M (Mar 2026) and $250M (Aug 2026) financings.

Disclosure & Continuity Surface

Private startup with thin formal corporate ESG reporting; no public revenue or headcount filings. Its commercial thesis targets terrestrial data-center water and grid constraints through orbital compute (CLM-26).
