The Boeing Supplier Code of Conduct: EHS, Labor & Ethics Asks

Published: November 16, 2026 · Canonical URL: https://bcesg.org/wa-space-ask-boeing-supplier-code-of-conduct/

Verification & Authority Baseline: Buyer-published corporate document (The Boeing Company), NOT a statute. Sets expectations for Environmental Management Systems (EMS), asbestos prohibition, anti-trafficking/forced labor, FCPA anti-corruption, and 24/7 Ethics Line reporting. Binding only via Boeing PO terms.

Boeing Code Pillar	Key Expectation	Legal vs. Contractual
EHS & EMS	Appropriate EMS, pollution prevention, zero asbestos	Buyer PO term + WA Ecology law
Human Rights / Labor	Zero forced labor, child labor, trafficking	Buyer PO term + FAR 52.222-50
Ethics & Anti-Corruption	FCPA compliance + 24/7 Ethics Line access	Buyer PO term + FCPA

Who Issues This Ask, Authority, and Binding Status

The Boeing Company (with major Defense, Space & Security operations in Tukwila and Kent) publishes a formal **Boeing Supplier Code of Conduct** on `boeingsuppliers.com`.

Requirement standard: The Boeing Supplier Code is a **buyer-published corporate document, not a law**. It becomes **contractually binding** on WA suppliers only when incorporated by reference into Boeing's General Provisions / Purchase Order Terms. Contrast this with **SpaceX and Blue Origin, which publish no standalone supplier ESG code**.

Evidence Required & Small-Supplier Effort Cost

Boeing expects suppliers to maintain an **appropriate Environmental Management System (EMS)**, prohibit asbestos-containing goods, enforce anti-human-trafficking and FCPA ethics controls, and make Boeing's 24/7 Global Ethics Line available.

Boeing charges $0 to acknowledge the code; internal EMS/policy drafting hours are **not in our data**.

WA Space Cluster Segments & Companies Affected

Applies to Boeing Defense, Space & Security suppliers in Satellite Manufacturing, Components & Suppliers (Janicki Industries, Electroimpact), and Adjacent Aerospace (Orion Industries).
