Verification & Authority Baseline: Binding federal regulations (FAR 52.225-1 for civil/NASA; DFARS 252.225-7001 for DoD). Requires suppliers to certify domestic end-product or qualifying-country origin on hardware deliveries.

Clause	Agency Scope	Allowed Origin
FAR 52.225-1	NASA & Civil Agencies	Domestic (US) end product unless waived
DFARS 252.225-7001	Department of Defense	US or DFARS qualifying country end product

Who Issues This Ask, Authority, and Binding Status

Federal space primes request **Buy American Act (BAA)** origin certificates under **FAR 52.225-1** (NASA/civil) and **DFARS 252.225-7001** (DoD).

Binding status: Both are **binding US federal acquisition regulations** (`48 CFR § 52.225-1` and `§ 252.225-7001`) when incorporated into prime contracts and flowed down on hardware POs.

Evidence Required & Small-Supplier Effort Cost

Suppliers complete the prime's **Certificate of Origin / Buy American Representation** stating country of manufacture and domestic component-cost compliance (or qualifying-country status under DFARS).

There is no government fee ($0); BOM country-of-origin tracking hours are **not in our data**.
