Verification & Authority Baseline: Binding US federal clause (48 CFR § 52.222-50) mandatory in all federal contracts and subcontracts. Basic prohibition applies to every WA supplier; formal written Compliance Plan & annual certification apply ONLY to >$550,000 subcontracts for supplies/services acquired outside the US.

Supplier Footprint	FAR 52.222-50 Duty	Required Proof
US-only manufacturing (WA)	Basic prohibitions + sub-tier flow-down	Signed Prime Reps & Certs
>$550,000 outside US (non-COTS)	Full Compliance Plan + annual certification	Written plan + annual cert to Prime/CO

Who Issues This Ask, Authority, and Binding Status

Every DoD and NASA prime flows down **FAR 52.222-50** (*Combating Trafficking in Persons*) inside standard federal Reps & Certs.

Binding status: `48 CFR § 52.222-50` is **binding US federal law** in all federal contracts and subcontracts. However, the formal written **Compliance Plan and annual certification (**`52.222-50(h)`**)** apply **only** to portions of contracts exceeding **$550,000** for supplies (other than COTS) acquired *outside* the United States or services performed *outside* the United States.

Evidence Required & Small-Supplier Effort Cost

Domestic WA shops satisfy the ask by signing the prime's annual **Reps & Certs** acknowledging zero forced labor, zero recruitment fees, and employee passport protections, and flowing `52.222-50` down to sub-tier vendors.

There is no government filing fee ($0); internal admin time for domestic shops is minimal (**not in our data**).

WA Space Cluster Segments & Companies Affected

Lands on every federal-subcontracting WA space supplier across Launch, Satellite Manufacturing, and Components & Suppliers.
