BC ESG · WA SPACE CLUSTER SUPPLIER ASKS (FRAME-300-BCESG)

SpaceX & Blue Origin Supplier Requirements (No Published Supplier ESG Code)

Published: November 16, 2026 · Canonical URL: https://bcesg.org/wa-space-ask-spacex-blue-origin-no-esg-code/

Verification & Authority Baseline: DOCUMENTED FACT: Neither SpaceX (Redmond) nor Blue Origin (Kent/Renton) publishes a standalone Supplier ESG Code of Conduct. Their actual supplier asks flow through confidential purchase terms, NDAs, ITAR/EAR, and AS9100D/ISO 9001 quality manuals—not public ESG scorecards.

Prime Anchor	Published Supplier ESG Code?	Actual Supplier Requirements
Blue Origin (Kent/Renton)	No standalone ESG code published	Confidential POs, NDAs, AS9100D, ITAR, NASA NFS (on NASA jobs)
SpaceX (Redmond)	No standalone ESG code published	Purchase Terms, Code of Business Ethics, ITAR/EAR, AS9100/ISO 9001
The Boeing Company (Tukwila/Kent)	Yes — Boeing Supplier Code of Conduct	Public EMS, asbestos ban, forced labor, FCPA, IAEG/EcoVadis

The Documented Fact: Neither SpaceX Nor Blue Origin Publishes a Supplier ESG Code

Per our sourced program research across Washington's two largest commercial launch and satellite anchors—Blue Origin (Kent HQ & Renton) and SpaceX (Starlink) (Redmond/Woodinville)—**neither SpaceX nor Blue Origin publishes a standalone Supplier ESG Code of Conduct**.

Unlike legacy defense/commercial primes such as The Boeing Company (which publishes a formal Supplier Code and participates in IAEG), SpaceX and Blue Origin govern suppliers through **private procurement contracts, strict NDAs, ITAR/EAR export controls, and aerospace quality manuals (AS9100D / ISO 9001)**.

What They Actually Ask For & Small-Supplier Effort Cost

A WA supplier onboarding with SpaceX or Blue Origin should expect: (1) **mutual NDA** and strict confidentiality, (2) **ITAR (**`22 CFR 120–130`**) / EAR** compliance and US Person verification, (3) **AS9100D / AS9102 FAIR** quality & lot traceability, and (4) **standard legal/safety compliance** (plus NASA NFS/FAR flow-downs on Blue Origin HLS/NASA subcontracts). Neither imposes a public Scope 3 or EcoVadis gate today.

Onboarding portal fees are $0; internal quality/ITAR setup costs are **not in our data**.

WA Space Cluster Segments & Companies Affected

Relevant to every Kent Valley and Redmond/Eastside machine shop, harness house, and electronics vendor serving Launch and Satellite Manufacturing.
