Mid-Market Disclosure Templates & Three-Door Readiness Bridge (WA Space)

Pillar: Supplier-Ask & Audit Readiness | **Basis:** BC ESG Anchors #342 & #853 + Batch 4/5 | **Primary Source:** BC ESG (#342 / #853) / CARB SB 253 | **As Of:** 2026-11-16

Adapts BC ESG's two pre-program mid-market readiness guides—Mid-Market ESG Disclosure Templates (#342) and Three Doors Into November 10 (#853)—for Washington space-cluster suppliers answering California customer and prime data requests.

Readiness Checklist & Corpus Traceability

• **Adapt Mid-Market Templates (#342):** Start with the utility, fuel, and governance table structure in Mid-Market ESG Disclosure Templates rather than building custom software.

• **Apply Three-Door Triage (#853):** Separate direct Scope 1+2 filings from customer-requested Scope 3 data using Three Doors Into November 10.

• **Connect WA Utility Bills:** Pull Puget Sound Energy, Seattle City Light, and Snohomish PUD kWh/therm totals per WA CCA & Utility Data Requests.

• **Hold Scope 3 Boundary:** Answer California customer Scope 1+2 requests via CA SB 253 Scope 1+2 via CA Customers while noting CA SB 253 Scope 3 (PARTIAL).

Operator Execution & Boundary Notes

• Keep one spreadsheet of monthly kWh, natural gas therms, and fleet/test-stand fuel purchases; it feeds WA CBPS, Seattle BEPS, and prime RFPs simultaneously.

• Do not treat ISSB IFRS S1/S2 or EU CSRD as U.S. domestic law for a WA-only supplier; see EU CSRD Omnibus Partial.

• Review Compliance: ESG Portals & SB 253 for internal sign-off before releasing facility emissions numbers.
