WA HB 1282 Buy Clean, Buy Fair Act (RCW 39.116): LIVE — Mandatory EPD Reporting Since Jul 1, 2025

Published: November 16, 2026 · Canonical URL: https://bcesg.org/wa-space-rule-wa-hb-1282-buy-clean-buy-fair-live/

Rule: Washington Buy Clean, Buy Fair Act (HB 1282, codified at RCW 39.116) | **Status:** LIVE | **Instrument:** RCW Chapter 39.116 (HB 1282) | **Date:** July 1, 2025 (Mandatory Reporting Effective)

Verdict & Proof: Washington's Buy Clean, Buy Fair Act (HB 1282, RCW 39.116) is LIVE. Since July 1, 2025, contractors on covered state-funded public building projects must submit third-party-verified Environmental Product Declarations (EPDs) and labor/origin data for structural concrete, rebar, structural steel, and engineered wood.

Covered Material	Required Documentation	Status
Structural Concrete	Product-specific EPD + origin + labor data	LIVE (since Jul 1, 2025)
Structural Steel & Rebar	Product-specific EPD + origin + labor data	LIVE (since Jul 1, 2025)
Engineered Wood	Product-specific EPD + origin + labor data	LIVE (since Jul 1, 2025)

Who Owes What by When: State Public Works vs. Private Space Facilities

Codified at RCW 39.116, HB 1282 went live on July 1, 2025 for eligible state-funded public building and higher-education construction projects. Contractors must report quantities, facility origins, supplier codes of conduct, and third-party-verified EPDs into the Department of Commerce Buy Clean, Buy Fair Reporting Database.

Private aerospace factories in Kent or Redmond are not directly subject to RCW 39.116 unless built with covered state public-works funding, but WA structural steel and concrete suppliers serving both public and space-facility builds now standardize EPD delivery.
